NITHYA JOSEPH

Java Backend Developer | Spring Boot, Microservices & Generative AI

+91 7339012489 | Coimbatore, Tamil Nadu

nithyajoseph1818@gmail.com | linkedin.com/in/nithyajoseph-sns | github.com/nithyajoseph1818

SUMMARY

Computer Science graduate with hands-on experience in Java backend development, Spring Boot microservices, and AI-powered applications using Python, Generative AI, and RAG. Seeking a backend developer role to build practical, scalable software solutions.

EDUCATION

B.E. Computer Science and Engineering **2022 – 2026**

SNS College of Engineering, Coimbatore *CGPA: 9.4 / 10*

Specialization: IoT and Cyber Security, including Blockchain Technology

Higher Secondary (HSC) and SSLC **2019 – 2021**

Presentation Convent Matric. Hr. Sec. School, Coimbatore *HSC: 92% | SSLC: 92%*

SKILLS

Programming Languages: Java, Python, C, SQL
Backend Development: Spring Boot, Microservices, REST APIs, Backend Architecture
AI and Machine Learning: Generative AI, Machine Learning, RAG, CNN, LLM APIs, Prompt Engineering
Frontend and Tools: HTML, CSS, JavaScript, Git, GitHub, Figma, Canva
Soft Skills: Problem-Solving, Analytical Thinking, Communication
Languages: Tamil (Native), English (Proficient), Hindi (Intermediate), German (Elementary)

EXPERIENCE

Programmer Analyst Trainee **Apr 2026 – Jul 2026**

Cognizant *Chennai, Tamil Nadu*

- Completed intensive training in Java Full Stack Development, Spring Boot, and Microservices, covering core backend concepts and application design.
- Developed and debugged Java and Spring Boot application modules, following structured coding practices with a goal of reducing implementation effort by 20%.
- Worked with REST APIs and microservices concepts to build modular, maintainable backend components.
- Served as Project Head, allocating tasks and tracking progress to improve team coordination by a targeted 25%.
- Collaborated with teammates to solve technical problems and deliver assigned project tasks on schedule.

Content Creator / Web Designer Intern **May 2025 – Nov 2025**

WiseWork *Bangalore, Karnataka*

- Designed digital content and pitch decks in Figma and Canva for Wise Maestro and Longer Life Tech.
- Supported website redesign and SEO work, targeting a 20% increase in website visibility.

PROJECTS

Airline Management System | Java, Spring Boot, Microservices

- Built a flight management application for flight scheduling and crew management using a modular microservices architecture.

Mercurious.AI | Python, Streamlit, RAG, Machine Learning

- Built a YouTube-based learning assistant with video summarization and AI-generated quizzes.
- **Achievement:** Selected for Google Hack 2024.

HER – Human-AI Evidence Reviewer | Python, Machine Learning, REST APIs

- Built an AI-powered forensic tool for deepfake detection and media verification, with REST APIs and a web interface.

LiDAR Spoofing Detection and Prevention | Machine Learning, C

- Built a detection and prevention solution against sensor manipulation in autonomous systems.
- **Achievement:** Ranked in the Top 10 Tech Nissan projects, 2025.

CERTIFICATIONS

- Cloud Computing & Distributed Systems – NPTEL — Apr 2026
- Generative AI & Agentic AI for Executives – Snowflake — Mar 2026
- Microsoft Azure AI Fundamentals – Microsoft — Sep 2025
- MERN Stack & Full Stack Development – Infosys Springboard — Mar 2025
- Web Development – PrepInsta — Jan 2024

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- **Department Topper** for consistent academic performance (CGPA 9.4/10).
- **Vice President, CyberChain Association** – led student engagement and team coordination.
- Event Coordination Club Member – organized blood donation camps, yoga sessions, and space-themed events.
